

SAMARTH TRIVEDI

CYBERSECURITY FRESHER | VAPT & CLOUD COMPUTING

+91 9725266993 | samarthtrivedi89@gmail.com | Surat, Gujarat | GitHub: sam3084

PROFILE

Cybersecurity fresher with a BCA in Computer Applications and hands-on training in Vulnerability Assessment and Penetration Testing (VAPT), the OWASP Top 10, information gathering, and vulnerability reporting. Complements this with practical, self-driven experience in AWS cloud deployment (EC2, S3, IAM) and Linux/networking fundamentals, giving a working understanding of both offensive security concepts and the cloud/network environments they are applied to. Looking for an entry-level opportunity in cybersecurity, VAPT, or SOC operations to build a long-term career in information security.

CERTIFICATIONS & TRAINING

- Cyber Security with AI (8-Week Training)** — Internshala Trainings, in association with IITM Pravartak Technologies Foundation (Certified 2026). Covered Information Security fundamentals, computer networking and web development, information gathering and VAPT across key OWASP Top 10 vulnerabilities, automating VAPT, and documenting/reporting vulnerabilities.
- Introduction to Cybersecurity** — Cisco Networking Academy
- Cybersecurity Fundamentals** — IBM SkillsBuild
- Networking Basics** — Cisco Networking Academy
- AWS Cloud Practitioner Essentials** — AWS Training & Certification
- Cybercrime, Cyber Law and Technology** — Certificate of Participation, School of Information Technology, Artificial Intelligence and Cyber Security

TECHNICAL SKILLS

- Security & VAPT:** Vulnerability Assessment & Penetration Testing (VAPT) fundamentals, OWASP Top 10, Information Gathering / Reconnaissance, Vulnerability Documentation & Reporting
- Networking:** IP Addressing, DNS, HTTP/HTTPS, Networking Fundamentals
- Cloud Computing:** AWS (EC2, S3, IAM) — IAM permissions, S3 bucket policies, EC2 security groups
- Operating Systems:** Linux (basic administration)
- Tools & Platforms:** AWS Management Console, AWS CLI (basic), GitHub

PROJECTS

Web Application Deployment & Security Configuration on AWS EC2

- Launched an EC2 instance, installed and configured the Apache web server, and deployed a sample web application.
- Configured security groups to control inbound/outbound traffic and restrict access to the instance.
- Accessed and validated the deployed application using its public IP and domain.

AWS Static Website Hosting

- Hosted a static website using AWS S3 and configured bucket permissions for secure, controlled public access.
- Enabled static website hosting and strengthened understanding of cloud storage access-control basics.

ksp_creation — Textile-Based Android Application

- Built an Android app for the textile industry using Android Studio (Frontend: XML, Backend: Java) over 4 months.

आहार शृंखला — Kitchen/Donation-Based Mobile Application

- Developed a user-friendly kitchen and donation-based application using Flutter (Dart) over 3 months, leveraging AI tools for development support.

EDUCATION

Bachelor of Computer Applications (BCA)

Veer Narmad South Gujarat University | 2022 – 2025

CGPA: 7.57 | Final Year SGPA: 9.30

LANGUAGES

English | Hindi | Gujarati
